To whom it may concern,

It is my pleasure to recommend Diego Cortes, who performed in an exemplary manner at Morpheus Space in the role of Marketing & Communications Manager.

During his time with Morpheus, Diego proved to be a talented, proactive professional with a comprehensive understanding of digital marketing and corporate growth. As CEO, I witnessed firsthand his ability to drive brand awareness. He was responsible for the end-to-end management of our social media channels, leading us to reach the milestone of over 14,000 followers on LinkedIn. Also, he successfully designed and executed highly targeted digital advertising campaigns, effectively reaching our core audience and driving high-value engagement with potential clients.

Additionally, Diego demonstrated impeccable leadership in the planning and logistical execution of corporate events including high impact panel opportunities, executive business meeting and social activities. These events drove increases in company visibility, advancement of important sales opportunities and development of key relationships that were fundamental to our business growth.

Unfortunately, due to a change in company strategy, his tenure with us has come to an end. However, I have no doubt that his strategic marketing skills, business acumen, and excellent work ethic make him an asset of the highest value for any top-tier organization.

I offer this recommendation with complete confidence and enthusiasm. Please feel free to contact me should you require any further information.

Sincerely,

Kevin Lausten

Chief Executive Officer, Morpheus Space
